

DEMOGRAPHIA

Traffic Congestion & Urban Density in the United States : 2007

Core Urban Area Density (2000)	Congestion: Travel Time Index	Peak Period Delay Hours Per Commuter
Over 4,000	1.37	51.1
3,000-3,999	1.32	43.6
2,000-2,999	1.20	32.3
Under 2,000	1.18	34.4

Density: Population per square mile

Urban areas corresponding to metropolitan areas over 1,000,000 population

New Orleans excluded

2000 population density is the latest reliable data

Calculated from Texas Transportation Institute & 2000 Census data
